

NEKOOSA

# Synaps XM

Dry Toner Printable  
Digital Polyester

Synaps is a next generation synthetic paper made from high-grade polyester film with superior dimensional stability and unmatched lay-flat characteristics. The result: great looking prints that hold their shape and color without extra laminates and coatings. Synaps withstands harsh environments inside or out.

**SYNAPS XM IS NOW  
PROTECTED AGAINST  
INFECTION-CAUSING  
BACTERIA & VIRUSES**

The COVID epidemic has fundamentally changed our sense of hygiene and health safety. We have adopted new habits to protect the community and ourselves from the spread of infections. That is why Synaps XM has now been improved with an agent that antagonizes the settlement and growth of bacteria and viruses on its surface.
